

FOR IMMEDIATE RELEASE

New Product – GPZ 19 Super-D Coil

Mawson Lakes, South Australia, October 23, 2016 -

Minelab is pleased to announce that the much anticipated GPZ 19 Super-D Coil will be available for purchase from the 14th November in Australia (and soon after in other regions). The GPZ 19 has been designed to maximise the performance of your GPZ 7000 and give a significant depth increase over the standard GPZ 14 coil.

The main features of the GPZ 19 Coil are:

- Deeper detection (average 30%*)
- More ground coverage
- Less ground noise
- Waterproof (to 1m/3ft[^])
- Super-D coil technology

More details are available on the GPZ 19 Accessory webpage [here](#).

To learn more about Minelab, visit www.minelab.com.

*When compared to the average performance of the GPZ 7000 detector with the GPZ 14 coil in typical environments. Actual performance depends upon prevailing conditions. ^GPZ 7000 detector is weatherproof only.

About Minelab:

Minelab is an Australian-built, multi-award winning business that has successfully scaled world markets to command global leadership in its key areas of operation. Based in Mawson Lakes, South Australia with regional offices in Chicago, U.S, and Dubai, U.A.E, the company specializes in advanced electronic technologies. Since its origins in 1985 Minelab has been the world leader in providing metal detecting technologies for consumer, humanitarian demining and military needs. Through devotion to research and development and innovative design, Minelab is today a major world manufacturer of hand-held metal detector products. Over the past 30 years, Minelab has introduced more innovative and practical technology than any of its competitors and has taken the metal detecting industry to new levels of excellence. Minelab is a Codan Limited company (ASX: "CDA").
