

**FOR IMMEDIATE RELEASE**

## Minelab Introduces the PRO-GOLD Premium Gold-Panning Kit

Mawson Lakes, South Australia, February 26, 2016 -

Minelab is pleased to announce the introduction of the PRO-GOLD Premium Panning Kit. The kit has everything a beginner needs to get started and the individual pans provide the experienced user with several gold panning advantages. The PRO-GOLD pans have multiple panning zones for maximum gold recovery and come in high contrast blue for optimum gold visibility.

The Main features of the kit are:

- Two premium pans & classifier (everything you need)
- Dual riffle gold capture (coarse & fine – traps all the gold)
- High contrast blue (see the yellow gold easier than any other panning kit)
- Compact nested design (easy to carry & transport)
- Carry bag & accessories (magnet, magnifier, & more...)

These gold pans have been tested by 'pros' in USA and Australia, with great results - *"In my opinion the Minelab PRO-GOLD panning kit is vastly superior to any other gold panning kit on the market and is my recommendation for both beginners and experts."* says Steve Herschbach, PRO-GOLD field tester and Detector Prospector forum owner, USA.

The PRO-GOLD kit will first be available for sale at the Minelab Wedderburn Detector Jamboree 2016, being held on March 12th-13th, and from our Australian dealers afterwards. PRO-GOLD will be available outside of Australia from April/May onwards. The two pans and classifier will also be sold separately.

### Part numbers for the kit and individual pans:

<a href="#">PRO-GOLD Panning Kit &amp; Accessories</a>	Part. No. 3011-0325
15-inch Pan	Part. No. 3011-0326
