

Go Minelabbing Day 2017

Minelab in conjunction with our Dealer network and various detecting groups sponsored “Go Minelabbing” events in May 2017 to celebrate International Metal Detecting Day. With more than 3,000 attendees across 28 locations around the world, Go Minelabbing day events proved to be a resounding success. It was a day full of fun detecting activities, product demonstrations, amazing finds and an opportunity to connect with fellow detectorists.

A special thanks to all our wonderful Minelab supporters who helped encourage the spark in a new generation of detectorists as well as bringing together seasoned treasure hunters. Congratulations to all the Minelab prize winners!
