

STOP WORKING IN THE DARK

## Expressions of Interest – Mine Engineer

*Over the last five years, Minetec has developed a unique Wi-Fi based, real time, physical asset tracking 'enabling technology' for mining. Used predominantly in underground hard rock mines Minetec has layered value added software solutions that play in both the safety and productivity spaces. There are many unique value propositions inherent in the overall solution set.*

*The last 12 months in particular has seen a rapidly growing demand for this revolutionary capability and numerous channels to market have made themselves apparent. Because of this evolving model, Minetec is on the lookout for a particular set of skills that are adaptable to a constantly altering commercial landscape.*

Minetec are seeking expressions of interest for a Mine Engineer to join the team based at Mawson Lakes for an upcoming exciting project.

You will work within a talented and multidisciplinary team who foster a culture of innovation. With a keen interest in technology and how it can be applied to the mining industry, you will support the design, configuration, implementation and transition support of systems in the field.

### **In this role you will be responsible for:**

- Providing internal and external technical and operational mining engineering support.
- Consulting on the use of Minetec Technology to improve mining operations, provide training, product presentations and pre and post sales engineering advice.
- Guiding the product roadmaps and assisting others with the creation of use case scenarios and consulting on user perspectives.
- Conducting technical and operational investigations and reports.
- Preparing product documentation for engineering and sales.

### **You will have:**

- A Bachelor Degree in Mining Engineering or equivalent.
- At least 2 years Post graduate operational experience, preferably in an underground mining environment.
- Knowledge or experience in using software and systems to improve underground mining techniques.

The image shows two workers in silhouette standing in a dark, rocky tunnel. The worker on the left is wearing a hard hat and a tool belt. The worker on the right is also in silhouette. The background is a textured, dark rock wall. In the top right corner, the word "MINETEC" is written in a bold, white, sans-serif font with a small trademark symbol (TM) to its upper right.

MINETEC™

## STOP WORKING IN THE DARK
