**Codan Radio Communications secures order for emergency communications solution and sustainment contract**

Codan Radio Communications, a division of Codan Limited (ASX:CDA), has secured a US\$4.3 million order from RiverCom 911, a civilian staffed emergency communications center based in Washington State, USA, to supply a P25 Digital Land Mobile Radio infrastructure solution. The order includes a ten-year sustainment contract.

The end-to-end solution will provide critical communications coverage while maintaining frequency, efficiency and allowing full control from RiverCom 911's central facility, which serves over 116,000 residents and 23 public safety agencies.

Approximately two thirds of the contract value is expected to be recognised as revenue in FY18.

This win is a significant milestone in our strategy to transition from a product to a solutions business.

On behalf of the Board

A handwritten signature in blue ink, appearing to read 'M Barton'.

Michael Barton  
Company Secretary

Project 25 (P25) is a suite of standards for digital radio communications that allows public safety agencies to communicate with each other in emergencies.

Codan is a technology company that provides robust technology solutions that solve customers' communications, safety, security and productivity problems in some of the harshest environments around the world. Our customers include United Nations organisations, mining companies, security and military groups, government departments, major corporates as well as individual consumers and small-scale miners.
