

STOP WORKING IN THE DARK

Site Technician (Communications)

About the role

We are now seeking an experienced and self-motivated individual with a passion for providing quality customer service for an 8/6 FIFO role in the North West of Western Australia.

Working with a small technical team on a remote mine site, you will be maintaining the sites Fleet Management System, In Pit Wireless Mesh and TETRA two-way radio system.

You will also be involved in the design, installation, commissioning, and ongoing support of various other communications systems including CCTV equipment, Hydrocarbon Management, Tele-remote Vehicles and Autonomous vehicles.

What you'll need

With a strong technical background and experience in maintaining site based communications networks, you will have demonstrated experience in:

- Tetra radio systems (infrastructure and subscriber units)
- Fleet Management Systems (Wenco)
- Microwave links
- IPW mesh networks (Motorola)
- FM Rebroadcast systems
- Solar Power Systems
- Installations on Heavy Mining Vehicles,

What we offer

Salary package will be commensurate to the successful candidate's experience.
