President & Executive General Manager

a Codan Company

# Who We Are

Technology solutions that optimize critical communications

Victoria, B.C (CAN)

Redmond, WA (USA)  
Worldwide Headquarters

Hampshire, England (UK)  
EMEA Headquarters

Brisbane, QLD (AUS)  
APAC Headquarters

GLOBAL CUSTOMERS

**90/7**

Countries/Continents

QUALITY PROCESS

**20+**

Years of ISO 9001 Certification

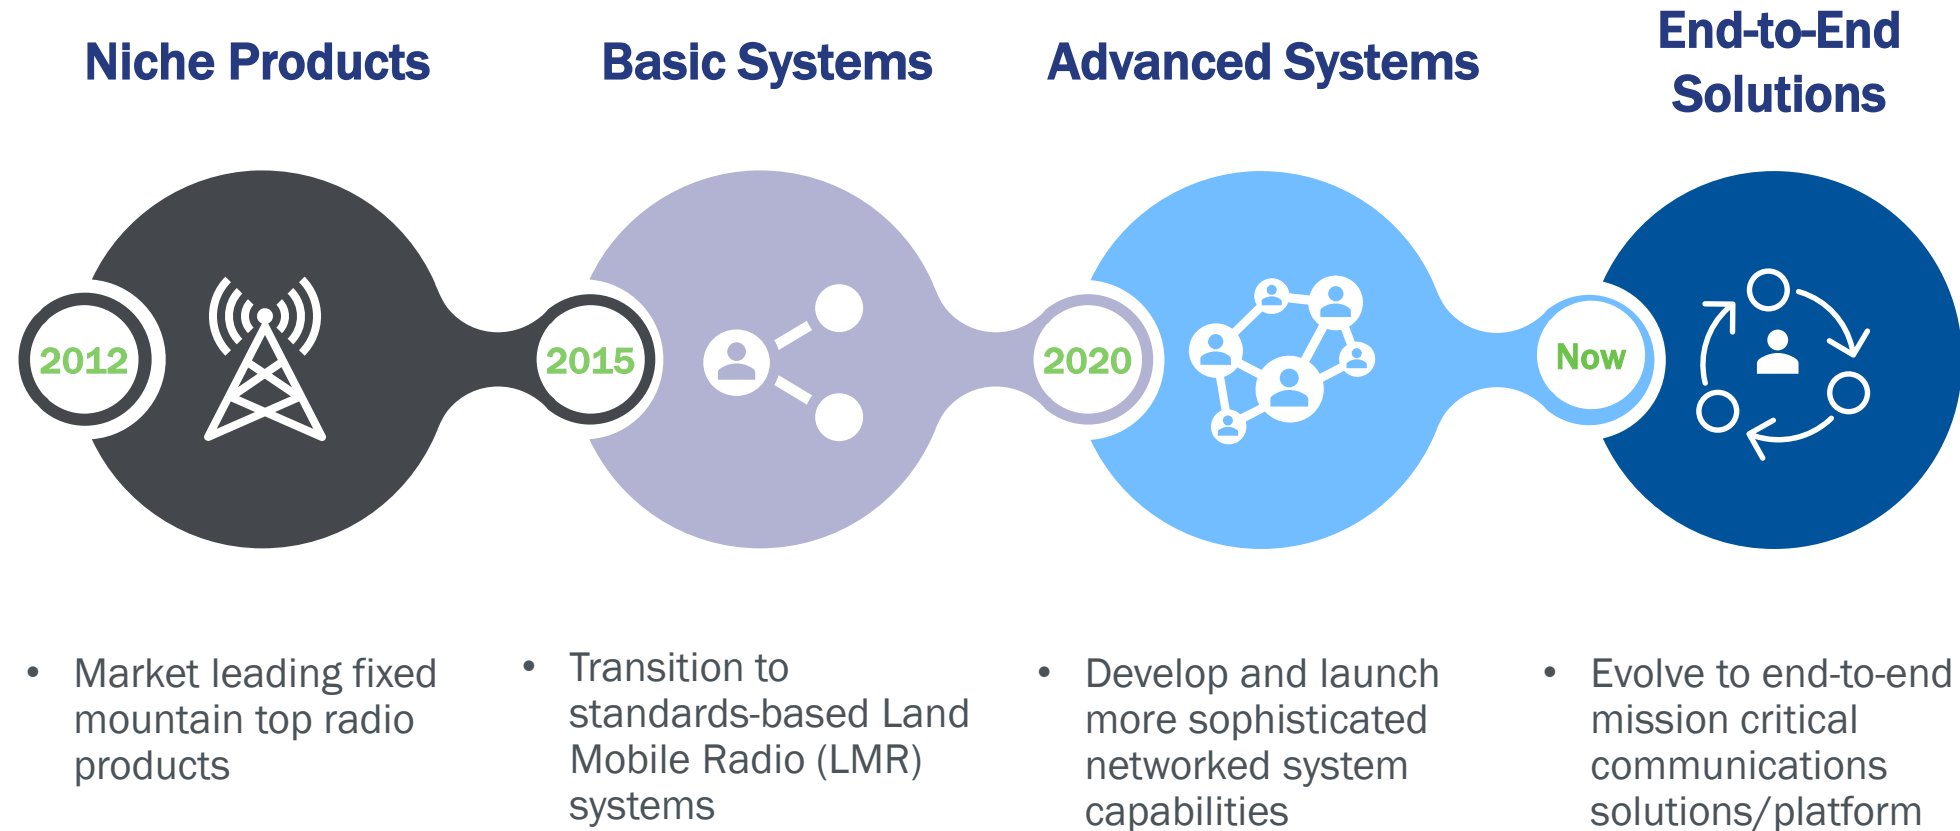

INNOVATION

**3 World Class**

Engineering Centers of Excellence

# Our Critical Communications Evolution

# EMERGENCY RESPONSE LIFECYCLE

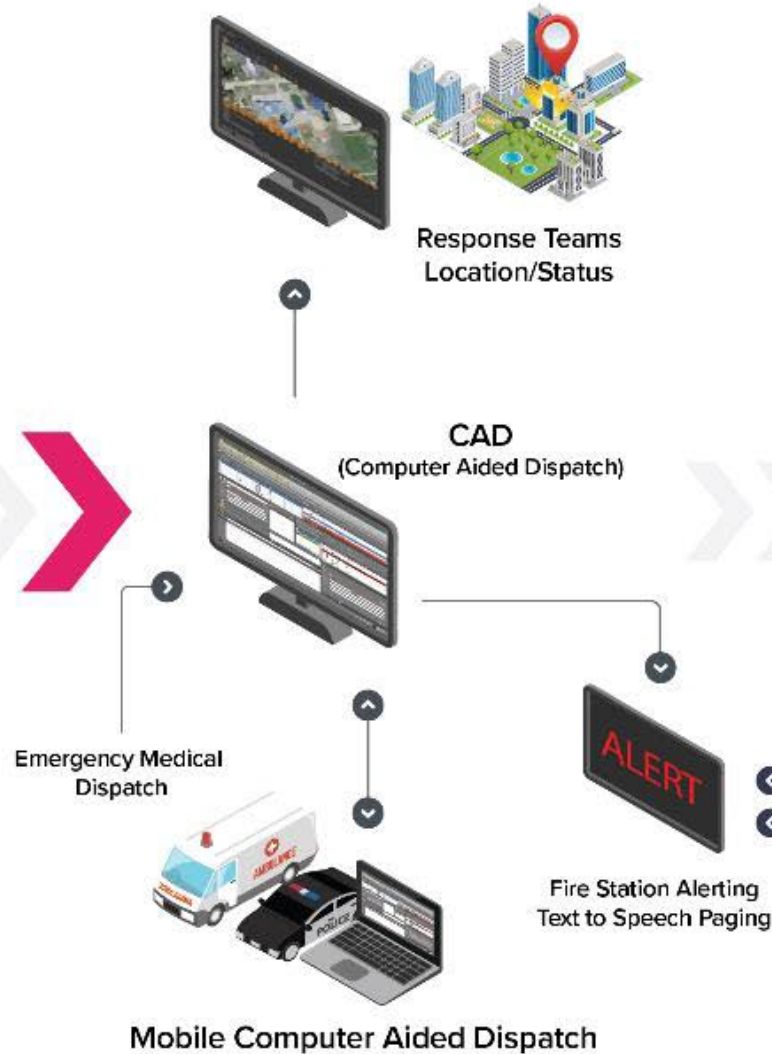

## INCIDENT/CALL

## CALL HANDLING/TRIAGE

## COORDINATION

## RESPONSE

# Zetron Services

Zetron's legendary product quality is backed by world class customer care and supporting services for every phase of the customer lifecycle

Public Safety & Government

Transportation

Utilities & Manufacturing

**On-Site Services**

**Project Management**

**Maintenance Contracts**

**Training**

**Technical Support**

**Hosted and 'as a Service'**

## Services as a Recurring Revenue Stream

- 30% of total revenue
- 90% multi-year contracts
- >90% renewal rate

# Markets We Serve

## Primary Markets

### Public Safety

Emergency Communications Centers | Police | Fire | EMS

Integrated systems that streamline emergency response and management

### Transportation

Air | Rail | Maritime | DOT

Command & Control solutions powering the most complex control room environments in the world

### Utilities

Electric | Natural Gas | Water | Waste

Communications that help keep the lights on and restore vital services when they're down

### Domestic Security

Quickly deployed transportable communications wherever the motorcade, rally or event goes

### Natural Resources

Oil & Gas | Mining | Forestry | Land Management

Reliable communications connecting HQ with land, sea or underground field operations

### Institutional

Higher Education | Healthcare | Corrections

Campus communications for staff, student, patient and population efficiency and safety

# Public Safety Market

- Market segmentation:
  - Urban – agencies serving large, densely populated regions
  - Suburban/Rural – agencies serving less populated and/or remote regions
- Motorola - market share leader in urban systems
- Zetron - traditionally strong in suburban/rural systems
- Motorola and Zetron only end-to-end mission critical communications solution platform providers

# Public Safety Markets

## Why We Win

- Interoperability = seamless communications regardless of technology
- Brand reputation for quality and reliability
- Untapped market share drivers...

**Land Mobile Radio Systems  
Into Zetron Command &  
Control Base**

**Command & Control  
Systems Into Land Mobile  
Radio Base**

**Investment in New  
Technologies**

**Next Gen 911 Readiness &  
Funding**

# Case Study

“The shared services really provides 911 answering points the reliability, ease of use, and financial incentive to bring their center into next generation 911.”

*Blake Derouchey, Iowa State 911 Program Manager*

## Iowa Department of Homeland Security & Emergency Management (USA)

- › **Challenge:** 99 counties operating independent, premise-based public safety answering point communications systems, many with outdated and obsolete technology
- › **Solution:** A virtually consolidated, statewide hosted next generation 911 technology platform, geographically diverse and with FirstNet network backup, available to all counties and funded by the state
- › **Benefits:** The latest in next generation 911, superior reliability and quality, with significant cost savings to the state and local agencies

# Federal Next Generation 911 Funding

## Modernization of 911 Networks – IP-Based Unified Communications

- Funding Sources Available and Growing

- 911 mobile phone tax: \$2 billion annually
- Funding required: \$10 to \$14 billion
- Build Back Better Act: proposed  
\$470 million US appropriated (FY23-25)

# Transportation Markets

## Why We Win

- Interoperability through technology convergence
- Customization and configurability to manage complex requirements
- Application diversity: Rail, Transit, Maritime, Airports, Airlines

**Shift to LTE presents opportunity**

**Command & Control (ACOM) combines Radio & Telephone for ideal customer fit**

**Investment in New Technologies**

**Asset Tracking & Mapping Integration**

# Case Study – Transportation

“ACOM’s IP architecture will allow us to expand and upgrade easily when the time comes to support additional transceivers and digital radio technologies.”

*Darren Young, Team Manager, Operational Control System*

## Yarra Trams (Australia)

- › **Challenge:** Analog dispatch system used to communicate with trams was approaching end of life and could not be expanded or made future proof.
- › **Solution:** Two ACOM Command & Control systems – one installed at the operations center and another at the DR center. 28 console positions – 16 at the new OC, 11 in the DR operations room that would replicate the consoles at the OC, and one administrator’s console in the maintenance facility.
- › **Benefits:** A cost effective, efficient and future proof system providing interoperability with all other radio technologies and existing transceivers, as well as scalability to meet future needs.

# Public Utilities & Energy Markets

## Why We Win

- Technology convergence
- Scalability to meet population and coverage area expansion
- Market expansion: Industry Consolidation, Renewables and Smart Grid

**Shift to DMR & Private LTE  
radio presents opportunity**

**Command & Control (ACOM)  
combines Radio & Telephone  
for ideal customer fit**

**Multi-Site Wide-Area  
Interconnectivity**

**Asset Tracking & Mapping  
Integration**

# Case Study – Utilities

“Powerco now has coverage in some remote parts of New Zealand that no other provider of mobile or radio has. We are set up for the future.”

*Phil Marsh, Network Operations Manager, Powerco*

## Powerco (New Zealand)

- › **Challenge:** Current system didn't have enough reach for staff to contact the control room from many remote areas.
- › **Solution:** ACOM Command & Control System – Driving the company's 32-position console system that also complements its new fleet of Hytera DMR 3 VHF radios.
- › **Benefits:** A highly customizable touch screen display with support for multiple simultaneous active calls. Included visual and audio alerts. The ability to leverage advanced features, such as Bluetooth, encrypted messaging and SIP gateways, in addition to Request-to-Talk and Press-to-Talk communications.
