

FOR IMMEDIATE RELEASE

## Next generation of GO-FIND Series Metal Detectors

Mawson Lakes, South Australia, April 3, 2018 –

Minelab is pleased to announce the release of our next generation GO-FIND Series Metal Detectors, building upon the success of our first products designed for the outdoor recreational enthusiast and novice detectorist.

Three new models are now available – the GO-FIND 22, 44 and 66, which will replace the GO-FIND 20, 40, and 60 models. New GO-FIND Series models have been designed with increased sensitivity so that targets can be identified at greater depth when compared to the original GO-FIND Series models. The new models are constructed using the same proven collapsible, lightweight platform and feature the same easy-to-use consumer interface which the original GO-FIND Series successfully brought to market in 2015.

**GO\*FIND 22**

Waterproof 8" Coil  
2x Protection Skins

**GO\*FIND 44**

Waterproof 10" Coil  
2x Protection Skins  
Backlight  
Pinpoint Mode  
Smartphone App

**GO\*FIND 66**

Waterproof 10" Coil  
2x Protection Skins  
Backlight  
Pinpoint Mode  
Smartphone **Pro** App  
Additional Accessories Included

All 3 new GO-FIND Series models will ship with 2 protection skins so that you can customise and protect your detector according to your visual preference.

New GO-FIND Series models feature proprietary Minelab VFLEX digital electronics to enhance standard single frequency VLF detection technology.
