## **Codan Communications, a full communications solutions provider**

**11 January 2019**

**Adelaide, South Australia –  
Codan Communications**

Codan Radio Communications, a division of Codan Limited (ASX: CDA) has rebranded to Codan Communications in line with its strategic direction.

With over 60 years in the business, Codan is well known for its success in supporting NGO's but has recognised significant growth in the tactical and military markets. The new name reflects continued product portfolio expansion that strategically strengthens the division as a full communications solutions provider, rather than simply a 'radio supplier'. Codan Communications provides end-to-end communications solutions – enabling our customers to be heard – to ultimately save lives, create security and support peacekeeping worldwide.

The division's innovative history of expansion and evolution continues with this name change as it reflects significant recent wins in Afghanistan, Bangladesh, Malaysia, West Africa and the Americas.

The name change does not impact the way in which we support any of our existing customers, rather broadens what we supply. We can now be found at a new website url: [codancomms.com](http://codancomms.com), and our staff will now be contactable via email [@codancomms.com](mailto:@codancomms.com).

## **About Codan Communications**

Codan Communications is a leading international designer and manufacturer of premium communications solutions. With operations in the US, we deliver our capability worldwide for the military, defence, humanitarian, peacekeeping, commercial, security and public safety markets.

We provide tactical communications solutions that enable our customers to be heard – to ultimately save lives, create security and support war fighters to enable peacekeeping worldwide. With almost 60 years in the business, we have garnered a reputation for quality, reliability and customer satisfaction, producing innovative and industry-leading technology solutions.
