**Re Workplace Gender Equality Reporting**

Under the Workplace Gender Equality Act 2012, Australian private sector employers with 100 or more employees must report to the Workplace Gender Equality Agency (WGEA) on Gender Equality Indicators each year.

In accordance with this requirement, in June 2024, Codan Limited lodged its annual Gender Equality Report with the WGEA. By submitting our report, we are not only meeting our compliance obligations but also contributing to the Agency's dataset on gender equality in Australian workplaces.

A copy of this report is available to employees and shareholders by contacting:
